CALL OUT 6,000 MEN

Mechanics on Boston and Albany and New York Central System From Boston to Chicago Get Notice to Quit To-day Unless Allston Dispute Is Settled by the Companies.

Fifteen thousand men on the New York Central railroad and the Boston & Albany division will be called out to-day as a result of the failure of the 200 striking car workers at Allston to effect a satisfactory settlement with the officials of the Boston & Albany.

This decision was reached by a unanimous vote of the striking men at a meeting held to-day in Harvard Hall, Allston, and it will result in a serious tie-up of the greatest railway system in the East. The orders to quit work are being telegraphed to the various heads of unions on the system this afternoon by National President Patrick F. Richardson.

An attempt to meet officials of the Boston & Albany division by a committee representing the striking men, the latter declared, with an absolute failure. They say that Vice-President Van Etten of the New York Central Road, and the local manager of the Boston & Albany, would not discuss the trouble with the committee.

"Hands Tied," Says Friese.
 The men are to be instructed to quit work when their day's work is finished. The union called out, which are affiliated with the American Federation of Labor, include: Boilermakers, carworkers, machinists, coppersmiths, tinsmiths, trackmen, powermen freight hands, road carpenters and road painters.

The engineers and firemen are not included in the list of the men affected. After the failure to see Mr. Van Etten, officials of the car workers went to see a Mr. Michael Friese, who is in charge of the Allston shops. He declared that he had been instructed that there would be no compromise. Peter Mitchell of the boilermakers was one of the party who called on Friese. "Do you know," said Mitchell to Friese, "that if it is decided to go out and you touch a hammer to steel I will call out every man from Boston to Chicago?" "Well," he replied, "my hands are tied. I have no authority to act unless I get it from Mr. Van Etten."

MADE THREE DEMANDS.
 There was great confusion in the hall when the vote was taken to strike. There was not a dissenting vote. The main points noticed were: 1. That the men were to be paid for the time they were out of work. 2. That the men were to be paid for the time they were out of work. 3. That the men were to be paid for the time they were out of work.

GIRL TELLS OF HOLD-UP BY MAN CLAD IN SKIRTS

POINTED REVOLVER AT HELEN NICHOLS AND
ROBBED HER TEACHER'S ROOM.

Miss Helen Nichols of Carey street, Everett, told the strange story of how she was held up at the point of a revolver yesterday afternoon by a woman in the room of her high school neighbor, Nathaniel Nichols. While the robber ransacked the room.

Occupants of the house believe that the robber was a young dressed as a woman, and that she was armed with a revolver and are trying to find the robber in either his feminine disguise or as a tramp.

The hold-up and robbery took place in the apartments of Mr. and Mrs. Royal Noyes in the fashionable Freeman apartment house, 40 Broadway street, where Miss

ment house in Norcross street, where Miss Tully rooms. Being accustomed to visit Misses, Mrs. Nichols, who was then 40 years of age, and the daughter of City Solicitor Charles Nichols, former Mayor of Everett, went directly to the room of her teacher of the second floor of the house. She did not know where the fellow had gone, but she got into the room, and, until turning around, she looked into the barrel

of a revolver held by a woman dressed in black. She was marched to a window and compelled to sit there, looking out. The thief ransacked the room and then escaped before the warden could make an out-

Pointed Revolver.

Miss Nichols, a reporter for the BOSTON AMERICAN, today said: "I was going up to see my teacher, Miss Katherine Titus, at her room in Mr. Noyes' apartments in the Freeman building to give her some of the photographs I had taken of my darling, my teacher, and so I walked off

near the door of Titus' room. He was given something to eat and went away. I believe, and so I thought that this person who Miss Nichols saw was the teacher, dressed as a woman."

Miss Nichols says the mysterious robber appeared in a dark, hooded garment. His worn were black. One thing that Miss Nichols did notice at the time in spite of her being so close to the door was that the woman's feet were extremely large.

SPECIALS AT TERRIER SHOW | **BROTHER HELD FOR BOY'S DEATH**

The premium list for the Boston tiercer show in Mechanics' building next month, which was sent out yesterday, shows a most liberal offering of \$2500 in total. There being only one tiercer of that age, the tiercer being only twenty-six years old, not including the Broder's share, and several more will be added later on. This is about as liberal as any specialty club has ever been, and with the many regular classes in which cash prizes will be given affords a fine op-

The feature of the specials, however, lies in their value, there being one, the value of

which is \$50, several at \$25 and \$15 and all the way down to nominal, and so which are of value. The fact that the great majority of the specials are open is another feature, for it allows every one to compete for them, whereas in many specialties where the total value is small, are set aside for the members of the club.

One of the most valuable and handsome trophies offered is the President's Cup, valued at \$25, offered by Dr. F. H. Lloyd for the best new dog.

For far less hitch in the show as a ribbon has been offered, to be known as the Providence trophy, while for the best dog or bitch never before exhibited has been come up a solid gold medal.

CARTER HARRISON HURT.

Workmen and
Business Men
Are United

Their Interests as Citizens Are
the Same

There is no question involved in this election that does not interest EVERY citizen. For the one question in the election is this: Shall the United States and the individual States be governed by trusts, by criminally organized capital? OR SHALL THEY BE GOVERNED BY THE MEN THAT INHABIT THEM?

All honest Americans have the same interests, merchants and workmen alike.

The workmen are interested in good wages, reasonable hours, and the WHOLE NATION is interested in those same things. Good wages mean plenty of money to be spent in the stores, for rent, and in every direction.

Reasonable hours mean better WORK during the working hours, and better, healthier men in the next generation. The child of an over-worked man is feeble.

There is no good American who is not interested in the future of his country, just as he is interested in the FUTURE OF HIS CHILD.

The time has gone by when a man in business imagines his interests to be different from those of the mechanic or any other workman.

The property of the entire nation depends upon the SPENDING CAPACITY of the body of the people. The store which thrives here, where the people make money and spend money, would die of starvation in China, where there are a few enormously rich men and a mass of poverty-stricken human beings.

The public enemies whom this newspaper is fighting are the enemies of business men and of workmen alike.

The Oas Trust cheats all classes, and it is fighting to elect Guild.

The same thing is true of every other monopoly, street cars, telephone and all the rest.

This is not a campaign interesting to workmen alone or to business men alone, or to any one class.

There is really only one political party in this country, and that is THE GREAT BODY OF THE AMERICAN PEOPLE. And that political party, THE AMERICAN PEOPLE AS A WHOLE, is interested in this campaign, which has primarily for its object the suppression of trust rule, the punishment of trust criminality, and the restoration of the governing power to the people to whom it belongs.

Mr. Rockefeller Is
Perfectly Sincere

HE REALLY BELIEVES THAT
HE SHOULDN'T BE IN-
TERFERED WITH

tunity we will have put the brake upon our national development." And he asks:

"Will the individual strive for success if he knows the hard-won prize is to be snatched from his fingers at the last by his government?"

We think the individual of the Rockefeller type WOULD still strive. We have noticed that the burglar strives for his booty although he knows that "it may be snatched from his fingers at the last" by the policeman.

And we think that Mr. Rockefeller and Mr. Rogers and the others would continue "to strive" even if there WERE some slight danger of their being caught.

Of course, the burglar would LIKE to wipe all criminal laws from the statute books. He would vote cheerfully for the abolition of the police force.

Still, the burglar manages to struggle on in the face of "shameful government interference." Perhaps Mr. Rockefeller could struggle on also, even though THE LAWS WERE MADE TO APPLY TO HIM.

Mr. Rockefeller says: "We are too young as a nation for this tearing down."

Are we? Are we too young TO BE HONEST?

Are we too young to run our government sincerely for the people in it?

We are too young to tear down WHAT?

We are too young to tear down a system that has given Mr. Rockefeller a thousand millions of dollars—A THOUSAND MILLIONS OF CRIMINAL MONEY OBTAINED IN VIOLATION OF LAW?

When SHALL we be old enough "to begin tearing down" a system that allows a man to bribe our public officials, to own judges, to destroy other business men, taking hundreds of millions of dollars in sheer plunder?

Mr. Rockefeller has a grandson. When that grandson is sixty years old SHALL WE BE OLD ENOUGH to begin to be honest in government?

It is a matter of plain mathematical calculation that Mr. Rockefeller's grandson, taking the present Rockefeller fortune at compound interest, WILL OWN MORE MONEY THAN THERE IS IN THE UNITED STATES TO-DAY.

If something were not done in the line of what Mr. Rockefeller is pleased to call "tearing down," there wouldn't be enough money, enough property, in the United States to give that little hairless grandson the amount of money that will be due to him, with compound interest, on the thousand millions already rolled together by his hairless grandfather.

Mr. Rockefeller is SINCERE enough. He imagines himself to be a fine, noble character. He thinks he has rendered a great service in taking a thousand millions from the people.

He thinks we are too YOUNG to be honest, too YOUNG to enforce the laws. He says it is a shame to denounce the Beef Trust. It was disgraceful to make that attack.

We ought to be thankful to Mr. Rockefeller—thankful that there is not more cunning underneath that wig. We should be thankful that he has begun to talk in his old age—begin to tell the truth. The American people, apparently, have not done very much thinking thus far; Rockefeller may force them to do it.

When he tells you your nation is too young to be a republic; when he tells you that wholesale thievery, shameful disregard of law must go on indefinitely, YOU WILL KNOW WHAT TO DO.

We have received many letters urging upon us the importance of "appealing to the labor vote." This newspaper appeals and will continue to appeal to THE COMMON SENSE OF ALL CITIZENS. WORKINGMEN. BUSINESS MEN. CLERKS AND OTHERS.

No more a child to be petted
And sheltered away from the strife;
Henceforth a man to be trusted

The Grumbling Habit

By Rev. Albert E. George

Many married people live together without grumbling. Some can, but the generality of married couples do not. In fact, a little grumbling these days comes as natural as eating. There is no quicker way to meet a difficulty than to let off a little spitting. It is not always the best thing to do, but it is the easiest. The married life comes up like a thunder cloud in a clear sky. It wouldn't do to be silent, but the wife's coming in a fit of one of these verbal squalls. You know you have to say something. People who really love one another are never disturbed for any length of time by hearing one another grumble by turns. They do not think too much of it.

Love truth, but pardon error.
